# 4-H Online Account Passwords

You may successfully reset your own 4-H Online password as long as you're able to check the email account associated with your 4-H Online email address. This is the email that was used to create your 4-H Online account, also known as the "Family" email address.
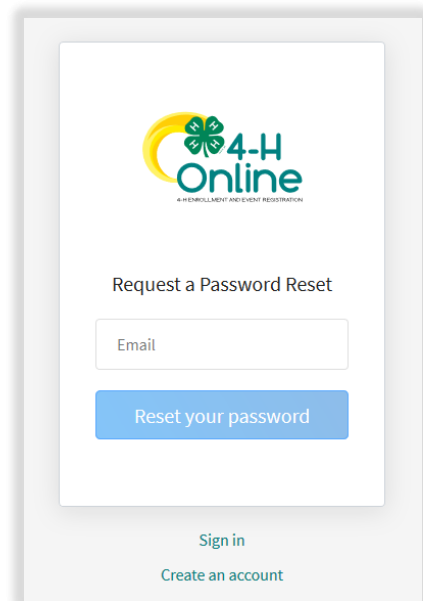

If you cannot access the email account used to access your 4HOnline account, skip to page 3.
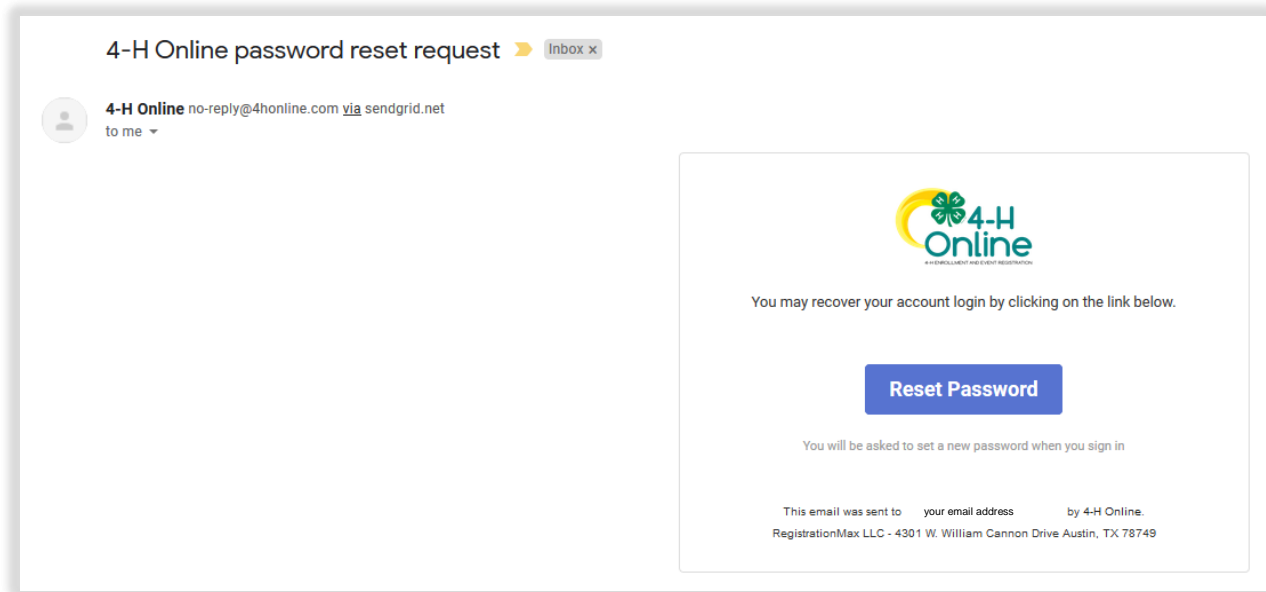

Password Reset

1. Click "Reset Password?" on the 4-H Online login screen.

2. Enter your "Family" email address used in 4-H Online and click [Reset your password].

3. The screen will indicate that a password reset email was sent to you.

4. Check your email account for the password reset email sent from 4-H Online.

5. Click on [Reset Password] on the email message.

6. Create and confirm the new password, then click [Change Password].

7. You may now login with your new password!

8. Please take record of your family's 4-H Online email and password for future use. This login is used for:

- Making changes to your contact information
- Adding or changing a member projects/club
- Updating a member's health information or emergency contact
- Adding more family members
- Registering for some 4-H events
- Enrolling and Reenrolling in 4-H
- YQCA login

Cannot Access Email

If you cannot access the email account associated with your 4-H Online account in order to reset your password, you will need Manager assistance. Please contact your local Extension office and speak to a 4-H staff member with 4-H Online experience.

Be ready to inform them of your updated email address. Once they edit/save your new email in the proper place, you may complete the Reset Password process on page 1.
